Fantasy Football League - Historical Analysis & Key Insights

Comprehensive Data & Analysis (2018-2024)

LEAGUE STANDINGS & STATISTICS

Win Percentage Leaders

1. **Jason Mandell**: .568 (54-41-0)
2. **Robby Wolf**: .568 (54-41-0) (tied)
3. **Jack Churchill**: .548 (23-19-0) - Joined in 2022
4. **Brandon Shanker**: .547 (52-43-0)
5. **John Streckert**: .537 (51-44-0)
6. **Matthew Catania**: .537 (51-44-0) (tied)
7. **Matthew Hooghkirk**: .512 (21-20-0) - Played in 2018, 2022, 2023
8. **Austin Moore**: .505 (48-47-0)
9. **Gavin Wolf**: .495 (47-48-0)
10. **Aidan Dolan**: .463 (44-51-0)
11. **Brandon Cutler**: .442 (42-53-0)
12. **Sam Veytsman**: .415 (34-48-0) - Did not play in 2019

Points Per Game Leaders

1. **John Streckert**: 112.44 points/game
2. **Jason Mandell**: 110.80 points/game
3. **Austin Moore**: 107.00 points/game
4. **Jack Churchill**: 106.58 points/game
5. **Matthew Catania**: 105.88 points/game
6. **Gavin Wolf**: 103.11 points/game
7. **Aidan Dolan**: 101.73 points/game
8. **Robby Wolf**: 100.85 points/game
9. **Sam Veytsman**: 100.70 points/game
10. **Matthew Hooghkirk**: ~100.40 points/game
11. **Brandon Cutler**: 97.17 points/game
12. **Brandon Shanker**: 96.21 points/game

Total Points Leaders

1. **Jason Mandell**: 10,526.26 points
2. **Austin Moore**: 10,165.30 points
3. **Matthew Catania**: 10,059.00 points
4. **John Streckert**: 10,007.56 points
5. **Gavin Wolf**: 9,795.46 points
6. **Aidan Dolan**: 9,663.90 points

7. **Robby Wolf**: 9,580.48 points
8. **Brandon Cutler**: 9,231.58 points
9. **Brandon Shanker**: 9,140.34 points
10. **Sam Veytsman**: 8,257.60 points (6 seasons)
11. **Jack Churchill**: 4,476.40 points (3 seasons)
12. **Matthew Hooghkirk**: ~4,116.00 points (3 seasons)

MANAGER PROFILES

Jason Mandell

Statistical Profile: - Win Percentage: .568 (54-41-0) - #1 OVERALL (tied) - Points Per Game: 110.80 - #2 OVERALL - Total Points: 10,526.26 - #1 OVERALL

Season-by-Season Performance: - 2024: Pray 4 Guru (9-5-0) - 2023: Justin Fields Of Dreams (6-8-0) - 2022: Justin Fields Of Dreams (6-8-0) - 2021: Certified Lover Boyd (12-2-0) - 2020: Kelley School Of Business (5-8-0) - 2019: Bailey's Tinder Matches (7-6-0) - 2018: Team Mandell (9-4-0)

Notable Achievements: - 12-2 record in 2021 is the best single-season record in league history - 2021 League Champion, defeating Austin Moore's El Guru (11-3-0) - League leader in total points scored all-time (10,526.26) - Top win percentage in league history (tied with Robby Wolf) - Tied for most wins all-time (54)

Robby Wolf

Statistical Profile: - Win Percentage: .568 (54-41-0) - #1 OVERALL (tied) - Points Per Game: 100.85 - #8 OVERALL - Total Points: 9,580.48 - #7 OVERALL

Season-by-Season Performance: - 2024: TERRENCE AND HIS BOYS (10-4-0) - 2023: TERRENCE AND HIS BOYS (5-9-0) - 2022: TERENCE AND HIS BOYS (9-5-0) - 2021: TERENCE AND HIS BOYS (5-9-0) - 2020: TERENCE AND HIS BOYS (10-3-0) - 2019: NATTY BOUND (7-6-0) - 2018: Whitewater Warhawks (8-5-0)

Notable Achievements: - 2022 Runner-up with "TERENCE AND HIS BOYS" (9-5-0) - Tied for most total wins (54) despite ranking 7th in points scored - Highest win-to-points ratio in the league - One of only two managers to reach 10 wins in multiple seasons - Classic "boom-bust" pattern with alternating strong and weak seasons

Jack Churchill

Statistical Profile: - Win Percentage: .548 (23-19-0) - #3 OVERALL - Points Per Game: 106.58 - #4 OVERALL - Total Points: 4,476.4 - #11 OVERALL (only 3 seasons)

Season-by-Season Performance: - 2024: Mike Hawk (8-6-0) - 2023: Mike Hawk (7-7-0) - 2022: Mike Hawk (8-6-0)

Notable Achievements: - 2024 Runner-up with "Mike Hawk" (8-6-0) - Third-highest win percentage despite being among newest members - Never had a losing season in three years of participation - Consistent high-end performance with 7+ wins in every season - Perfect team name consistency across all three seasons

Brandon Shanker

Statistical Profile: - Win Percentage: .547 (52-43-0) - #4 OVERALL - Points Per Game: 96.21 - #11 OVERALL - Total Points: 9,140.34 - #9 OVERALL

Season-by-Season Performance: - 2024: Israeli Defense Force (6-8-0) - 2023: Israel Defense Force (9-5-0) - 2022: Team Oy Vey (6-8-0) - 2021: Team Oy Vey (8-6-0) - 2020: Team Oy Vey (9-4-0) - 2019: Saving Matt Ryan (8-5-0) - 2018: Trumps Border Wall Builders (6-7-0)

Notable Achievements: - 2020 League Champion with "Team Oy Vey" (9-4-0) - Most efficient manager - 4th in win percentage despite lowest points-per-game - Has third-most total wins (52) while ranking 9th in total points - Only manager to maintain a winning record while averaging < 100 points per game - Cultural identity-focused team naming convention

John Streckert

Statistical Profile: - Win Percentage: .537 (51-44-0) - #5 OVERALL - Points Per Game: 112.44 - #1 OVERALL - Total Points: 10,007.56 - #4 OVERALL

Season-by-Season Performance: - 2024: Retirement Home (8-6-0) - 2023: Team Streckert (8-6-0) - 2022: Team Streckert (8-6-0) - 2021: Team Streckert (7-7-0) - 2020: Team YoungHoe (7-6-0) - 2019: Team McKevitt (6-7-0) - 2018: Team Streckert (7-6-0)

Notable Achievements: - 2024 League Champion with "Retirement Home" (8-6-0) - 2018 League Champion with "Team Streckert" (7-6-0) - 2020 Runner-up with "Team YoungHoe" (7-6-0) - Only one losing season (6-7-0 in 2019) across seven years of competition - League leader in points per game (112.44) - Most championship appearances (4) with two championship wins - Remarkably steady production with 6+ wins every season

Matthew Catania

Statistical Profile: - Win Percentage: .537 (51-44-0) - #5 OVERALL (tied) - Points Per Game: 105.88 - #5 OVERALL - Total Points: 10,059.0 - #3 OVERALL

Season-by-Season Performance: - 2024: For The Rebrand (8-6-0) - 2023: For The Brand (7-7-0) - 2022: For The Brand (6-8-0) - 2021: For The Brand (5-9-0) - 2020: For The Brand (7-6-0) - 2019: For The Brand (11-2-0) - 2018: The Cryptic Cookie Crew II (7-6-0)

Notable Achievements: - Produced remarkable 11-2 season in 2019, tied for second-best record - 2019 League Champion, defeating Brandon Cutler's Team Bcut (9-4-0) - Ranks in top 3 for total points - One of only four managers with 50+ career wins - Strong brand consistency with "For The Brand" theme

Matthew Hooghkirk

Statistical Profile: - Win Percentage: .512 (21-20-0) - #7 OVERALL - Points Per Game: ~100.4 - #10 OVERALL - Total Points: ~4,116.0 - #12 OVERALL (3 seasons)

Season-by-Season Performance: - 2023: Raya Rebel (7-7-0) - 2022: Hinge Legend (5-9-0)* - 2018: Moist Towellete KONYISINNOCENT (9-4-0)

Notable Achievements: - Strong rookie season (9-4-0) in the competitive 2018 season - 2018 Runner-up with "Moist Towellete KONYISINNOCENT" (9-4-0) - 2023 League Champion with "Raya Rebel" (7-7-0) - lowest win total for any champion - Team name evolution reflects witty cultural references and dating trends - Non-consecutive participation pattern

*Took over Aron Bwayo's team after the draft in 2022

Austin Moore

Statistical Profile: - Win Percentage: .505 (48-47-0) - #8 OVERALL - Points Per Game: 107.00 - #3 OVERALL - Total Points: 10,165.3 - #2 OVERALL

Season-by-Season Performance: - 2024: El Guru (6-8-0) - 2023: Guru Nanak FC (6-8-0) - 2022: El Guru (4-10-0) - 2021: El Guru (11-3-0) - 2020: Schrute Farms (8-5-0) - 2019: Win Now Mode (7-6-0) - 2018: Young Arnold (6-7-0)

Notable Achievements: - 2021 Runner-up with "El Guru" (11-3-0) - Produced 11-3 record in 2021, third-best single-season record - Ranks 2nd in total offensive production despite exactly .505 win percentage - Perfect .500 balance (48-47) over seven seasons shows remarkable consistency - League's most statistically unlucky manager based on points-to-wins ratio

Gavin Wolf

Statistical Profile: - Win Percentage: .495 (47-48-0) - #9 OVERALL - Points Per Game: 103.11 - #6 OVERALL - Total Points: 9,795.46 - #5 OVERALL

Season-by-Season Performance: - 2024: Bunny in the Backfield (6-8-0) - 2023: Makeout Secured Mavs (6-8-0) - 2022: Makeout Secured (10-4-0) - 2021: Makeout Secured (6-8-0) - 2020: PNSL 4 DAK (6-7-0) - 2019: Mcaffery IS MINE (6-7-0) - 2018: Lindsay XXX (7-6-0)

Notable Achievements: - Outstanding 10-4 season in 2022 despite typically average performance - Second-highest scoring season in league history in 2022 (1,661.48 points) - 2022 League Champion, defeating Robby

Wolf's TERENCE AND HIS BOYS (9-5-0) - Only manager substantially improving after name change (Lindsay XXX → Makeout Secured) - Remarkably consistent 6-win floor despite varying season lengths

Aidan Dolan

Statistical Profile: - Win Percentage: .463 (44-51-0) - #10 OVERALL - Points Per Game: 101.73 - #7 OVERALL - Total Points: 9,663.9 - #6 OVERALL

Season-by-Season Performance: - 2024: BMS Mountain Goats (5-9-0) - 2023: SCLSU Mud Dogs (9-5-0) - 2022: SCLSU Mud Dogs (9-5-0) - 2021: SCLSU Mud Dogs (6-8-0) - 2020: SCLSU Mud Dogs (4-9-0) - 2019: Miami Sharks (2-11-0) - 2018: Montreal Alouettes (9-4-0)

Notable Achievements: - Most dramatic improvement - from 2-11 in 2019 to 9-5 in 2022 - Back-to-back 9-5 seasons (2022-2023) after four consecutive losing seasons - 9-4 record in inaugural 2018 season before regression and later comeback - Multiple sports-movie themed team names (SCLSU Mud Dogs, Miami Sharks)

Brandon Cutler

Statistical Profile: - Win Percentage: .442 (42-53-0) - #11 OVERALL - Points Per Game: 97.17 - #10 OVERALL - Total Points: 9,231.58 - #8 OVERALL

Season-by-Season Performance: - 2024: Team Absolute Units (6-8-0) - 2023: Team Absolute Units (8-6-0) - 2022: Team Absolute Units (8-6-0) - 2021: Team Absolute Units (3-11-0) - 2020: Team Bcut (6-7-0) - 2019: Team Bcut (9-4-0) - 2018: Team Bcut (2-11-0)

Notable Achievements: - 2023 Runner-up with "Team Absolute Units" (8-6-0) - 2019 Runner-up with "Team Bcut" (9-4-0) - Most dramatic single-season improvement - 2-11 in 2018 to 9-4 in 2019 and championship appearance - Impressive transformation from worst team in 2018 to championship contender in 2019 - Produced winning records in consecutive seasons (2022-2023) after struggling years - Only manager to improve from 2+ win seasons to 9+ win seasons - Strong brand consistency with simplified team naming convention

Sam Veytsman

Statistical Profile: - Win Percentage: .415 (34-48-0) - #12 OVERALL - Points Per Game: 100.70 - #9 OVERALL - Total Points: 8,257.6 - #10 OVERALL (6 seasons)

Season-by-Season Performance: - 2024: American Taxi #79 (6-8-0) - 2023: American Taxi #79 (6-8-0) - 2022: American Taxi #79 (5-9-0) - 2021: American Taxi #79 (7-7-0) - 2020: Chicago Taxi #79 (6-7-0) - 2019: Did not play - 2018: Jewish Defense League (4-9-0)

Notable Achievements: - Second-highest points in a single season in 2021 (1,555.92) despite 7-7 record - Remarkably consistent team naming (American Taxi #79) for five consecutive seasons - Only manager to miss a season (2019) and return to competition - League's second most statistically unlucky manager based on points-to-wins ratio

---

League Champion History

Championship Results (2018-2024)

Season	Champion	Record	Runner-Up	Record
2024	**Retirement Home** (John Streckert)	8-6-0	Mike Hawk (Jack Churchill)	8-6-0
2023	**Raya Rebel** (Matthew Hooghkirk)	7-7-0	Team Absolute Units (Brandon Cutler)	8-6-0
2022	**Makeout Secured** (Gavin Wolf)	10-4-0	TERENCE AND HIS BOYS (Robby Wolf)	9-5-0
2021	**Certified Lover Boyd** (Jason Mandell)	12-2-0	El Guru (Austin Moore)	11-3-0
2020	**Team Oy Vey** (Brandon Shanker)	9-4-0	Team YoungHoe (John Streckert)	7-6-0
2019	**For The Brand** (Matthew Catania)	11-2-0	Team Bcut (Brandon Cutler)	9-4-0
2018	**Team Streckert** (John Streckert)	7-6-0	Moist Towellete KONYISINNOCENT (Matthew Hooghkirk)	9-4-0

Championship Appearances

1. **John Streckert**: 4 appearances (2 wins, 2 runner-ups)
2. **Matthew Catania**: 1 appearance (1 win)
3. **Brandon Shanker**: 1 appearance (1 win)
4. **Jason Mandell**: 1 appearance (1 win)
5. **Gavin Wolf**: 1 appearance (1 win)
6. **Matthew Hooghkirk**: 2 appearances (1 win, 1 runner-up)
7. **Brandon Cutler**: 2 appearances (0 wins, 2 runner-ups)
8. **Jack Churchill**: 1 appearance (0 wins, 1 runner-up)
9. **Robby Wolf**: 1 appearance (0 wins, 1 runner-up)
10. **Austin Moore**: 1 appearance (0 wins, 1 runner-up)

Championship Win Rate

- **Matthew Catania**: 100% (1/1)
- **Brandon Shanker**: 100% (1/1)
- **Jason Mandell**: 100% (1/1)
- **Gavin Wolf**: 100% (1/1)
- **John Streckert**: 50% (2/4)
- **Matthew Hooghkirk**: 50% (1/2)
- **Brandon Cutler**: 0% (0/2)
- **Jack Churchill**: 0% (0/1)
- **Robby Wolf**: 0% (0/1)
- **Austin Moore**: 0% (0/1)

NOTABLE SINGLE-SEASON PERFORMANCES

Best Regular Season Records

1. Jason Mandell (2021): 12-2-0 - Certified Lover Boyd (League Champion)
2. Matthew Catania (2019): 11-2-0 - For The Brand (League Champion)
3. Austin Moore (2021): 11-3-0 - El Guru (Runner-Up)
4. Gavin Wolf (2022): 10-4-0 - Makeout Secured (League Champion)
5. Robby Wolf (2020): 10-3-0 - TERENCE AND HIS BOYS
6. Robby Wolf (2024): 10-4-0 - TERRENCE AND HIS BOYS
7. Matthew Hooghkirk (2018): 9-4-0 - Moist Towellete KONYISINNOCENT (Runner-Up)
8. Jason Mandell (2018): 9-4-0 - Team Mandell
9. Aidan Dolan (2018): 9-4-0 - Montreal Alouettes
10. Brandon Cutler (2019): 9-4-0 - Team Bcut (Runner-Up)
11. Aidan Dolan (2022): 9-5-0 - SCLSU Mud Dogs
12. Aidan Dolan (2023): 9-5-0 - SCLSU Mud Dogs
13. Robby Wolf (2022): 9-5-0 - TERENCE AND HIS BOYS (Runner-Up)
14. Brandon Shanker (2020): 9-4-0 - Team Oy Vey (League Champion)
15. Brandon Shanker (2023): 9-5-0 - Israel Defense Force

Most Surprising Championship Runs

1. **John Streckert (2018)**: Won championship with 7-6-0 record (Team Streckert)
2. **Matthew Hooghkirk (2023)**: Won championship with 7-7-0 record (Raya Rebel)
3. **John Streckert (2024)**: Won championship with 8-6-0 record (Retirement Home)
4. **Brandon Shanker (2020)**: Won championship from 1st seed with 9-4-0 record (Team Oy Vey)
5. **Gavin Wolf (2022)**: Won championship from 1st seed with 10-4-0 record (Makeout Secured)

Highest Single-Season Point Totals

1. John Streckert (2024): 1,664.7 - Retirement Home (League Champion)
2. Jason Mandell (2024): 1,663.0 - Pray 4 Guru
3. Gavin Wolf (2022): 1,661.48 - Makeout Secured (League Champion)
4. Jason Mandell (2021): 1,660.04 - Certified Lover Boyd (League Champion)
5. Aidan Dolan (2022): 1,583.74 - SCLSU Mud Dogs
6. Austin Moore (2021): 1,583.7 - El Guru (Runner-Up)
7. Sam Veytsman (2021): 1,555.92 - American Taxi #79

KEY INSIGHTS & UNEXPECTED TAKEAWAYS

1. The Efficiency Paradox

The most striking revelation is how dramatically team efficiency varies across managers. Brandon Shanker (4th in win percentage) and Robby Wolf (tied for 1st) have achieved their success while ranking 11th and 8th in points per game, respectively. This extreme efficiency—winning despite below-average scoring—challenges conventional fantasy wisdom that high scoring correlates directly with success.

2. The Luck Factor Is Enormous

Austin Moore's case represents perhaps the most extreme example of scheduling misfortune in fantasy leagues. Ranking 2nd in total points and 3rd in points per game while maintaining an almost perfectly balanced 48-47 record defies probability. The magnitude of this scoring-to-wins disconnect suggests luck plays a far larger role than typically acknowledged.

3. Team Name Consistency Correlates With Performance

Remarkably, managers who maintained consistent team names (particularly Robby's "TERENCE AND HIS BOYS" and Sam's "American Taxi #79") showed more stable performance patterns than those who frequently changed names. This unexpected correlation suggests psychological factors like brand consistency might influence managerial behavior.

4. The Single-Season Outlier Phenomenon

Multiple managers have produced single-season outliers that dramatically deviate from their typical performance. Gavin's 2022 season (10-4 with second-highest point total in league history) and Austin's 2021 campaign (11-3) stand as statistical anomalies that suggest fantasy success isn't purely skill-based but occasionally aligns perfectly for breakthrough performances.

↵ 5. The Recurring Participant Phenomenon

Matthew Hooghkirk's pattern of participating in non-consecutive seasons (2018, 2022, 2023) presents an interesting contrast to continuous managers. With a .512 win percentage (21-20-0), his performance shows that recurring participants can maintain competitive teams despite gaps in participation. His strong rookie season (9-4-0) followed by more moderate results after returning suggests fantasy football requires continuous engagement to maintain elite performance levels.

6. Draft Strategy Matters Less Than In-Season Management

The wide variation in draft strategies among successful managers (John's RB-heavy approach vs. Jason's "Zero-RB" technique) indicates multiple

viable paths to victory. However, the efficiency leaders (Robby and Brandon) suggest in-season management may matter more than draft strategy.

7. The "Boom-Bust" Cycle Is Real

Several managers demonstrate clear alternating patterns of strong and weak seasons. Robby Wolf's oscillating performance (10-4, 5-9, 9-5, 5-9, 10-3) suggests cyclical performance patterns that defy explanation through mere randomness.

8. The Sporadic Manager Phenomenon

Matthew Hooghkirk's pattern of participating in non-consecutive seasons (2018, 2022, 2023) contrasts with continuous managers. With a .512 win percentage, his performance demonstrates that interrupted participation affects competitive consistency. His early success (9-4-0 rookie season) followed by a more modest 5-9-0 return suggests fantasy football skills require regular practice to maintain peak performance.

9. The Psychological Impact of Names

Team naming conventions reveal fascinating psychological insights. The switch from "Lindsay XXX" to "Makeout Secured" coincided with Gavin's performance improvement. Brandon Shanker's team names reflect cultural identity ("Israel Defense Force") while Jason's names often incorporate current player references ("Justin Fields Of Dreams"). Matthew Hooghkirk's progression through dating apps ("Hinge Legend" to "Raya Rebel") suggests fantasy football serves as an extension of digital social identity and relationship status.

10. Sam's Unique Pattern

Sam Veytsman presents the league's most fascinating paradox—2nd worst win percentage (.415) despite reasonably good scoring (9th in PPG). His 2021 season produced the second-highest single-season point total while delivering only a 7-7 record, suggesting catastrophic scheduling luck.

11. The Comeback Factor

Aidan Dolan's dramatic improvement from 2-11 in 2019 to consecutive 9-5 seasons challenges the notion that fantasy managers establish a performance baseline. His recovery demonstrates that dramatic improvement is possible after extended struggles.

12. The Consistency King Phenomenon

Despite having one losing season (6-7-0 in 2019), John Streckert's consistency across seven seasons is remarkable. His ability to maintain at least 6 wins in every season, bounce back from his only losing record, and convert mediocre regular seasons into championship runs (7-6 in 2018, 8-6 in 2024) highlights a strategic approach that consistently produces competitive teams regardless of league conditions.

13. Dating App Dynasty

Matthew Hooghkirk's team naming convention reflects a clever progression through modern dating culture, evolving from "Moist Towellete KONYISINNOCENT" in 2018 to "Hinge Legend" in 2022 and "Raya Rebel" in 2023. This migration from humor-based naming to dating app references suggests an evolution in digital social identity - moving from mass-market dating apps (Hinge) to elite invitation-only platforms (Raya), potentially tracking his own relationship journey or aspirational identity.

14. The Championship Threshold Theory

The data suggests approximately 1,500 points per season represents a threshold for championship contention, with teams crossing this mark frequently achieving 9+ win seasons regardless of manager identity or draft strategy.

15. The Rookie Phenomenon

Three managers achieved exceptional 9-4-0 records in their debut seasons (Matthew Hooghkirk, Jason Mandell, and Aidan Dolan in 2018), suggesting that rookie managers often enter with fresh perspectives unbiased by previous league dynamics. Hooghkirk's outstanding rookie season with the second-highest point differential (+16.2) demonstrates how newcomers can immediately leverage their outsider perspective for competitive advantage, though his later results show maintaining such performance is challenging.

⚖ 16. The Championship Disconnect

An unexpected insight emerges when comparing regular season records to championship success - the best regular season teams often fall short in the playoffs. In the seven-year history, only Jason Mandell (2021) and Matthew Catania (2019) managed to win championships after securing the league's best regular season record. Two champions had merely 7-6 records during the regular season (John Streckert in 2018), while Hooghkirk won with a 7-7 record in 2023. Perhaps most surprisingly, Hooghkirk (2018) and Austin Moore (2021) both lost championship games despite having substantially better regular season records than their opponents. This suggests that playoff success requires different skills than regular season dominance, with late-season roster optimization and matchup exploitation proving more valuable than season-long point accumulation.

17. The Regular Season Paradox

The 2018 championship presents perhaps the league's most striking paradox - John Streckert winning with a 7-6-0 record over Matthew Hooghkirk who had a substantially better 9-4-0 regular season. This phenomenon has recurred multiple times, most notably with Matthew Hooghkirk's 7-7 championship team in 2023 defeating Brandon Cutler's 8-6 squad. This suggests that the single-elimination playoff format introduces significant variance, potentially rewarding teams peaking at the right time rather than those with consistent performance throughout the regular season. The repeated success of middle-of-the-pack teams in championship games challenges traditional fantasy wisdom about building consistently dominant rosters.

CONCLUSIONS & STRATEGIC IMPLICATIONS

The comprehensive analysis of seven seasons reveals several actionable insights for fantasy managers:

1. **The Efficiency Edge**: Robby Wolf and Brandon Shanker demonstrate that win-loss records depend more on weekly matchup optimization than raw scoring. Managers should focus on consistent weekly production rather than boom-bust performers that inflate season-long point totals but produce unpredictable weekly results.

2. **Multiple Viable Strategies**: The tie for highest win percentage between Jason Mandell (Zero-RB advocate) and Robby Wolf (balanced approach) demonstrates that contradictory draft strategies can achieve identical results. This suggests the draft provides a foundation, but in-season management ultimately determines final standings.

3. **The Consistency Premium**: John Streckert's steady performance across seven seasons (only one below-.500 finish) represents an impressive achievement in reliability. His floor-focused approach contrasts with ceiling-focused managers like Gavin Wolf and Austin Moore who experience higher peaks but also deeper valleys.

4. **The Cyclical Nature of Success**: The clear boom-bust pattern displayed by multiple managers
